## Education

**C. V. Raman Global University**  
B.Tech in Computer Engineering

2023 – 2027

## Experience

### Future Interns

May 2026 – Present

*Full Stack Web Development Intern*

- Working on full stack web development projects as part of the internship program
- Building responsive web applications using HTML, CSS, JavaScript, and GitHub
- Improving practical skills in frontend development, project structuring, and deployment workflows

## Projects

### AI-Based Attendance Management System

*Python, OpenCV, Face Recognition, Pandas*

- Built a real-time face recognition system using facial embeddings and distance-based matching for automated attendance tracking
- Implemented duplicate prevention using time-threshold logic and daily record validation to improve data accuracy
- Optimized performance by resizing video frames to reduce computation cost while maintaining reliable detection
- Automated attendance logging with timestamped Excel reports for daily tracking
- Handled multiple face detection in live video streams with real-time labeling using OpenCV

### Personal Portfolio Website

*HTML, CSS, JavaScript*

- Designed and developed a responsive personal portfolio website
- Added sections for projects, skills, contact information, and professional profile
- Hosted project using GitHub Pages for public access

## Technical Skills

**Languages:** Java, Python

**Database:** SQL

**Web:** HTML, CSS, JavaScript

**Tools:** Git, GitHub, VS Code, Android Studio

**Libraries:** OpenCV, NumPy, Face Recognition

## Relevant Coursework

Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems

## Certifications

Google UX Design Professional Certificate – Coursera
